

# “At Your Service”

Since the dawn of ancient civilization, dogs have been called to service for civil, military, and hunting purposes. In our present day, the role of dogs in our communities and country has expanded to include many additional roles and functions including: Therapy, Reading Partners, Search and Rescue, Herding, Border Patrol, Drug and Cadaver dogs, and more.

"**At Your Service**" showcases through artistic watercolor impression these **special** "hard-working dogs" and their handler/owners or organizations - special because of the training they've received, the love they have for their work and working partners, and the fact the only "paycheck" they receive is a pat on the head and their "chow" at the end of the day. Defending our country and borders; our families, friends and neighbors; comforting our elderly and the sick and injured; working as a cow-hand or alerting to fire; these are the stars of "**At Your Service.**"

You're invited to view this unique exhibit of service dogs and the organizations they represent, in hopes you will "paws" to learn more about how these important animals enhance and strengthen our communities.

If you would like more information on this traveling exhibit, or would like to include it as part of your special event, please contact Kelly Merrick at (509) 420-0874 or by e-mail at [kjewelk@verizon.net](mailto:kjewelk@verizon.net).
